# God Provides in the Desert

Exodus 13:17-22; 16 & 17

“I will send bread to you from Heaven,” God told the people.

The people of Israel left Egypt with Moses and God was with them. He showed them the way to go with a pillar of cloud during the day and a pillar of fire at night. With God guiding them, they could travel day or night. When the cloud or pillar of fire stopped, they stopped. When it moved, they moved on as well.

God was with the Israelites and provided them all they needed. Six days a week, God provided food, called manna, each morning. On the sixth day there was enough for the seventh day so they could rest and not have to work.

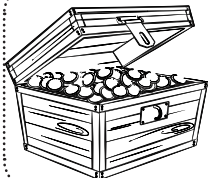

When they needed water, God gave it to them in miraculous ways. God took His people out of slavery and cared for them as they walked through the desert.
